10. Vuelva a la consola de administración de Cloud App Security como se indica. Tome nota de la ID de la aplicación que se muestra.

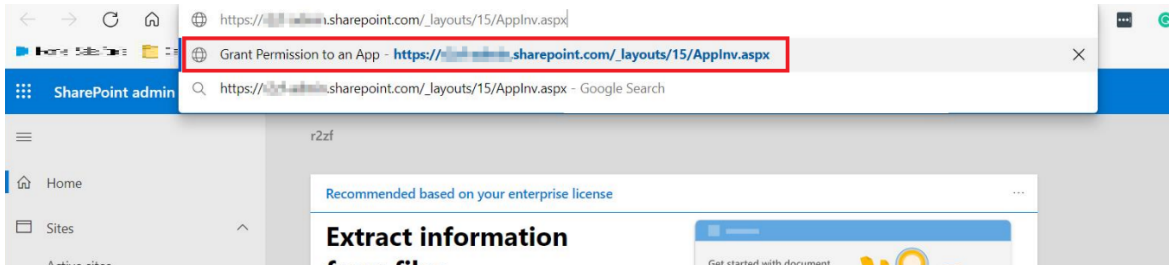

11. Realice los siguientes pasos para otorgar permisos de Cloud App Security para recibir notificaciones de Microsoft sobre cualquier cambio en los archivos en sus sitios de SharePoint.

- a. Inicie sesión en el [centro de administración de Microsoft 365](#) con su cuenta de administrador global.
- b. Vaya a **Centros de administración > SharePoint** desde la navegación de la izquierda. Aparece la página del centro de administración de SharePoint.

- c. Cambie la URL del centro de administración de SharePoint a {sharepoint_admin_site}/_layouts/15/AppInv.aspx en la barra de direcciones.
Por ejemplo, cambie https://example-admin.sharepoint.com/_layouts/15/online/AdminHome.aspx#/home a https://example-admin.sharepoint.com/_layouts/15/AppInv.aspx.

- d. En la pantalla que aparece, ingrese la Id. de la aplicación asignada (del paso 10) en el campo **Id. de la aplicación** y luego haga clic en **Buscar**. El campo Título se rellena automáticamente.

El Id. de la aplicación se puede encontrar en la Cuenta autorizada correspondiente en **Administración > Cuenta de servicio**.

- e. En el campo **Dominio de la aplicación**, ingrese "tmcas.trendmicro.com".
- f. Ingrese {Cloud App Security_admin_site}/provision.html en el campo **URL de redireccionamiento** según su sitio de servicio.
Por ejemplo, si la URL de su consola de administración de Cloud App Security en la barra de direcciones es "https://admin-eu.tmcas.trendmicro.com" después de iniciar sesión, ingrese https://admin-eu.tmcas.trendmicro.com /provision.html en el campo **URL de redirección** .
- g. Copie y pegue la siguiente información en el campo **XML de solicitud de permiso**:

```
<AppPermissionRequests AllowAppOnlyPolicy="true">  
<AppPermissionRequest Scope="http://sharepoint/content/tenant"  
Right="Administrar" />  
</AppPermissionRequests>
```

Create **Cancel**

App Id and Title
The app's identity and its title.

App Id:
Lookup

Title:

App Domain:
Example: "www.contoso.com"

Redirect URL:
Example: "https://www.contoso.com/default.aspx"

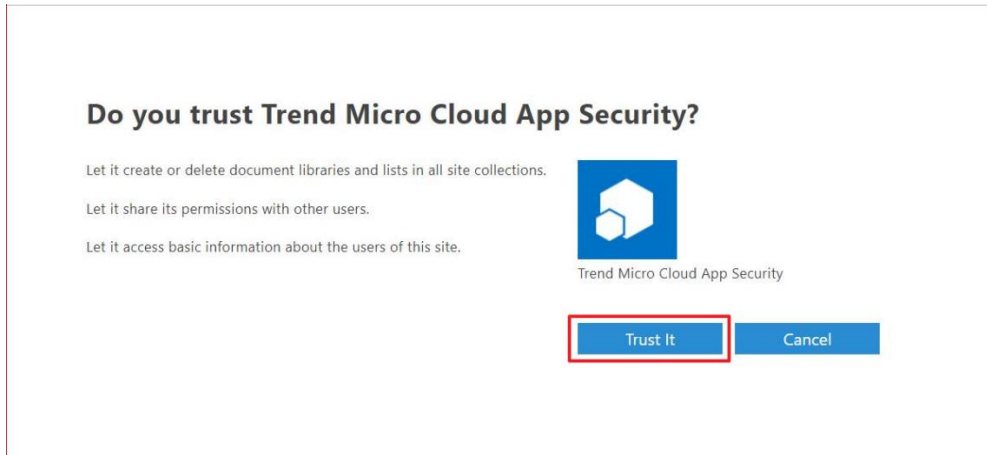

App's Permission Request XML
The permission required by the app.

Permission Request XML:

```
<AppPermissionRequests  
AllowAppOnlyPolicy="true">  
<AppPermissionRequest  
Scope="http://sharepoint/content/tenant"  
Right="Administrar" />  
</AppPermissionRequests>
```

Create **Cancel**

h. Haga clic en **Crear** y, en la pantalla que aparece, haga clic en **Confiar**.

i. Cambie la URL del centro de administración de SharePoint a {sharepoint_admin_site}/_layouts/15/TA_AllAppPrincipals.aspx y luego abra la URL para verificar el permiso.

j. Una vez que Trend Micro Cloud App Security aparece en la lista de aplicaciones, significa que el permiso se ha concedido correctamente.

Apps

Find app principal by identifier:

	App Display Name	App Identifier
X	Dataverse	https://...sharepoint.com/_layouts/15/TA_AllAppPrincipals.aspx
X	Office 365 Exchange Online	https://...sharepoint.com/_layouts/15/TA_AllAppPrincipals.aspx
X	Trend Micro Cloud App Security	https://...sharepoint.com/_layouts/15/TA_AllAppPrincipals.aspx

12. Vuelva a la consola de administración de Cloud App Security y haga clic en **Enviar** . Cloud App Security luego actualiza los datos de SharePoint Online en su organización. El tiempo necesario depende de la cantidad de datos que tenga en SharePoint Online.
13. En la esquina superior derecha de la consola de gestión, desplace el cursor sobre el icono de campana y confirme si el aprovisionamiento se realizó correctamente. Si aparece el mensaje "SharePoint Online protegido". aparece en la pantalla de Notificaciones, el aprovisionamiento es exitoso.
